

HEALTHY CARIBBEAN COALITION
March 2014

For more information please contact the HCC at hcc@healthycaribbean.org or visit our website www.healthycaribbean.org

The NCD Alliance was founded by:

# 1.	Raise priority of NCDs through international cooperation and advocacy					
1.1 Inclusion of NCDs in current national development plan						
1.1	Presence of National NCD Planning					
1.2	Government inclusion of NCDs in Official Development Assistance (ODA) Framework					
1.3	Operational national NCD alliance/coalition/network of CSOs that engages People Living with NCDs (PLWNCDs)					
1.4	Government led, supported or endorsed national NCD conference /summit/meeting held in the last 2 years					
	with active participation of CSOs					
1.5	Government-led or endorsed public media campaign on NCD awareness or NCD prevention, partnering					
	with CSOs and held in the last 2 years					
# 2:	# 2: Strengthen national capacity, multisectoral action and partnerships					
for NCDs						
2.1	Operational National NCD Plan (number of key elements outlined below): If score less than 4, please refer to 2.2					
2.1 a)	Vational NCD Plan with a 'whole of government' approach ie with areas for action beyond the health sector					
2.1 b)	Functional national multisectoral NCD commission/mechanism (incl. CSOs, People Living with NCDs and private sector)					
2.1 c)	National budgetary allocation for NCDs (treatment, prevention + health promotion, surveillance, monitoring/evaluation, human resources)					
2.1 d)	CSOs and PLWNCDSs engaged in National NCD Plan development					
2.2	Number of subnational jurisdictions (state, district, etc.) with an operational NCD plan that meets the full					
	criteria outlined above					
2.3	Number of operational NCD Public-private partnerships supporting elements of National NCD Plan					
2.4	National Government partnerships with CSOs on NCD initiatives					
# 3:	Reduce NCD risk factors and social determinants					
3.1	Number of tobacco (m)POWER policies/interventions in existence:					
	Existence of recent nationally representative information on youth and adult prevalence of tobacco use ^a 2011					
	National Legislation banning smoking in health-care in all indoor public places including workplaces, restaurants and bars ^b					
	Existence of national guidelines for the treatment of tobacco dependence					
	Legislation mandating visible and clear health warnings covering at least half of principal pack areas					
	Legislation banning tobacco advertising, promotion and sponsorship OR Legislation comprehensively banning all forms of direct tobacco marketing in all forms of media and advertising					
	Tobacco taxation policy of between 2/3 and 3/4 of retail price					
3.2	National strategies on the major NCD risk factors (out of total listed below)					
3.2 a)	Tobacco					
3.2 b)	Alcohol					
3.2 c)	Nutrition					
3.2 d)	Physical Activity					
3.3	Increased taxes on alcohol in last 5 years					
3.4	National policies and regulatory controls on marketing to children of foods high in fats, trans fatty acids, free sugars or salt					
3.5c	National action on salt reduction					
	National policies/regulatory controls on salt reduction					
	Number of voluntary company pledges to salt reduction					
3.6	Physical education in schools with resources and incentives					

4.1 Evidence based national guidelines on used in Public Sector: General Utilisation Cancer Cardiovascular disease Chronic Respiratory Diseases Diabetes Mental Health Generally Available Tobacco Dependence Alcohol Depend	# 4: Strengthen and reorient health systems to address NCDs
