Dominica Cancer Society

Strengthening Dominica Cancer Society Cervical Cancer Outreach Programme

Objectives:
Strengthen service delivery capacity of Dominica Cancer Society.
Increase awareness and advocacy among Dominicans about cervical cancer.
Improve cervical cancer treatment access among indigent women.

This funding has provided:
Equipment: 1 printer, 1 projector, 1 projector screen, 1 digital camera; 1 external hard drive.
Furniture: 1 filing cabinet.
1000 materials designed, developed and disseminated.
4 Training workshops with 60 outreach workers trained.
Production of cancer awareness materials, including 220 T-shirts and 400 pins.
Models purchased for cancer awareness events.
1 country-wide text message blast; 3 television public service announcements posted on social media networks, YouTube, Facebook and local online media.
Treatment vouchers provided for 60 underserved Dominican women.

Outcomes:
Increased service delivery capacity of Dominica Cancer Society.
Increased cervical cancer knowledge among Dominican women.
Improved screening attitudes among Dominican women.
Increased access to treatment for cervical cancer.
