Continue to administer and maintain the HCC Website

Re-design and develop the HCC site

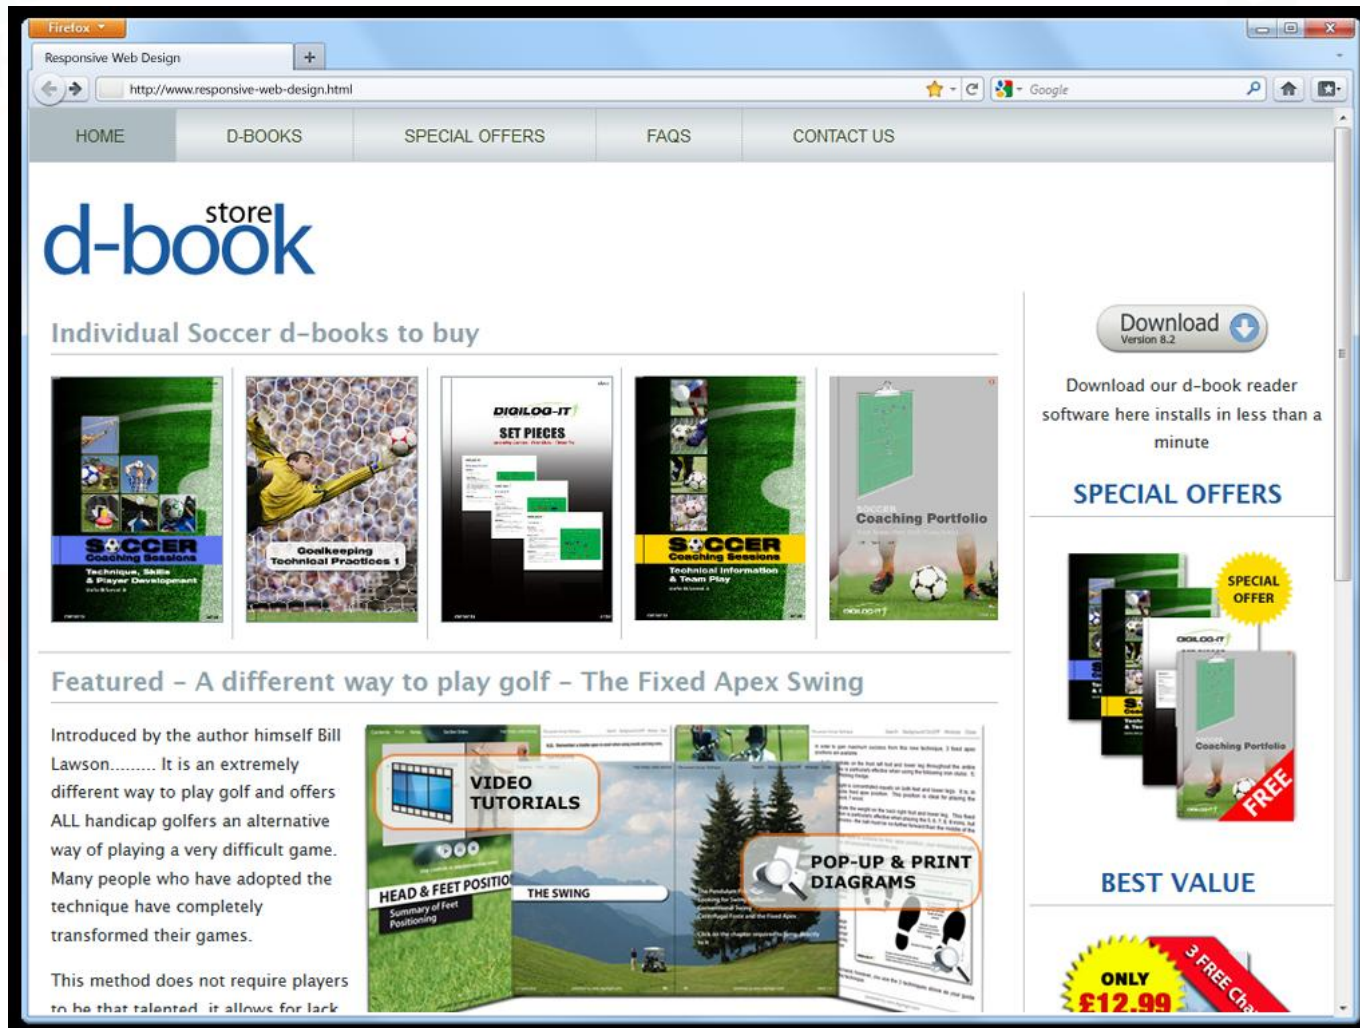

Include dedicated page for each HCC Member

Use a responsive design to adapt to the increasing demands of the mobile user

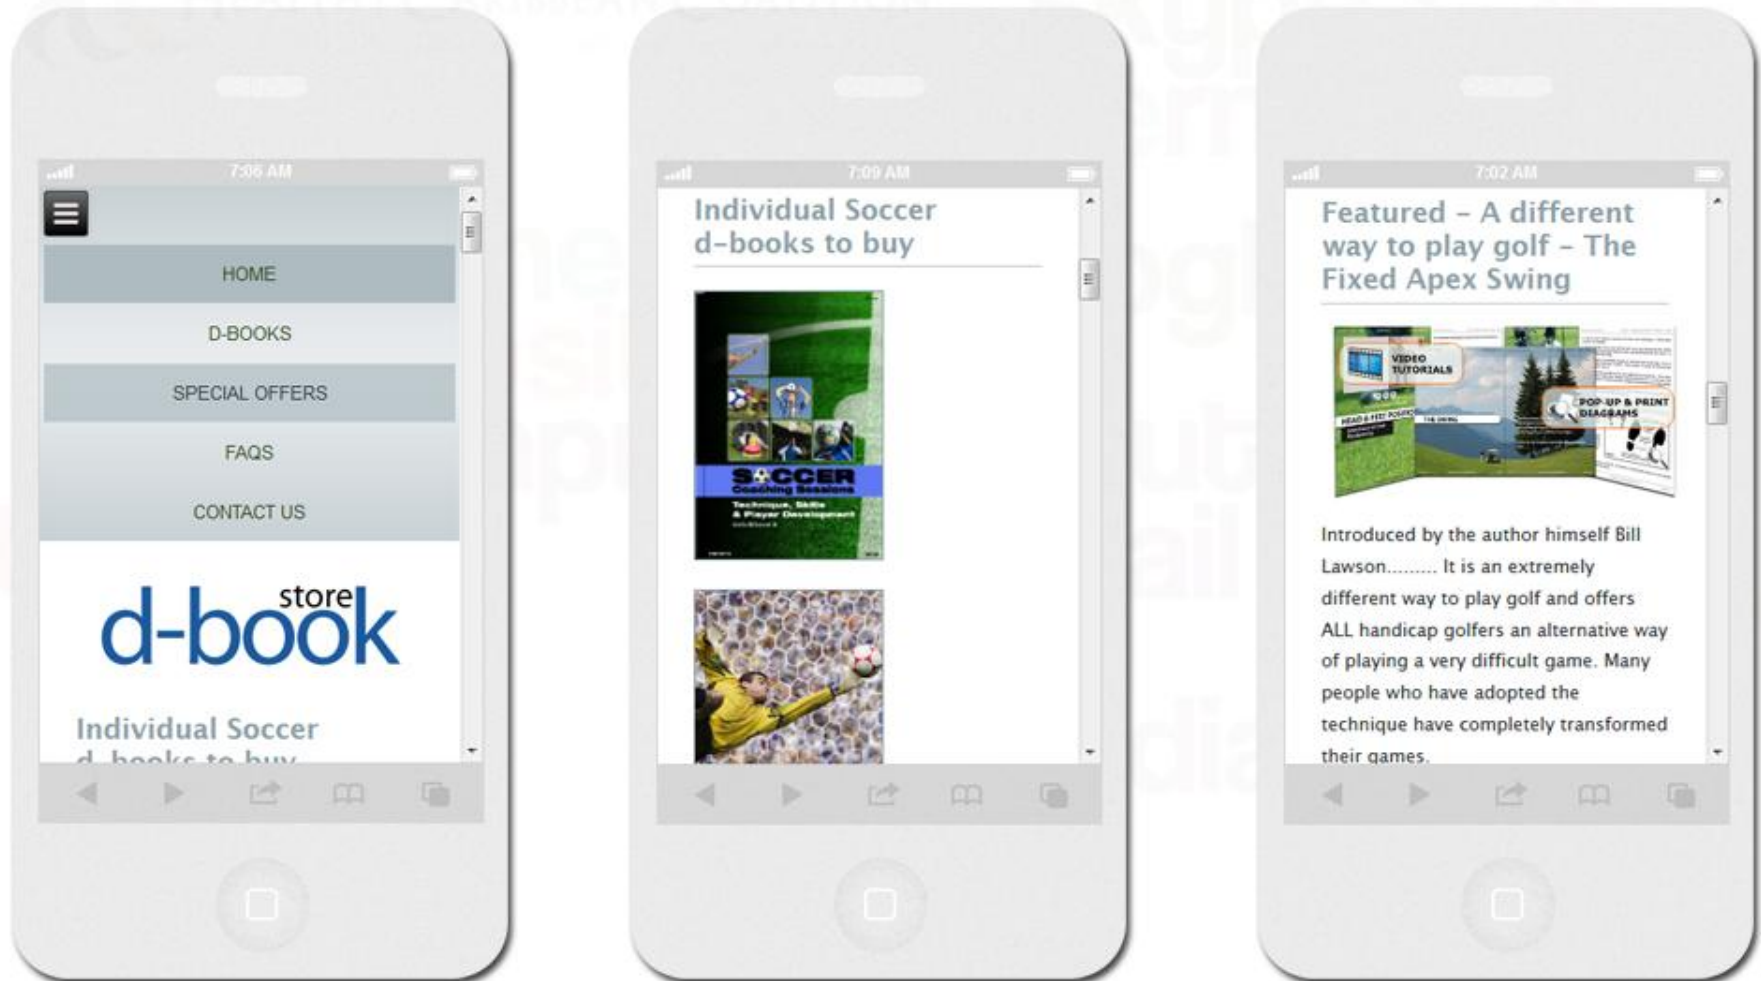

Actively support and advise HCC Members

Responsive web design

Responsive web design

Why do I need a website ?

1. People expect you to have a website
2. It's dynamic and it can evolve along with your organisation
3. It's a cost effective way to promote your organisation 24/7 Regionally & Internationally
4. To be found
5. To build credibility
6. To communicate and connect with your audience

survivorship programs and services.

[SHOP THE **LIVESTRONG** STORE >](#)

DONATE

Your gift will help provide free services and
support to cancer survivors.

[DONATE TO **LIVESTRONG** >](#)

Considerations for a good Website

1. Call to Action

Clearly visible direct message and action to take

2. Clear & Simple Identifiable Navigation

Your visitors should never be lost!

3. Easy to Read

Legible text and everything well spaced

4. Clean

No distractions from the Call to action use 'attention grabbers' sparingly

5. Reflect Your Image/Cause/Brand

First impressions are important

Content - inform and engage

1. Current
2. Relevant
3. Interesting
4. Easy to find
5. Integrate your Social media content

A solidly designed website, appealing in content and appearance, will draw the visitor back for regular visits and will create word of mouth traffic as well.

Social Media 'How to Guide'
