HCC Caribbean NCD Forum, April 2018
Overview

• The **backdrop and context** for the third UN High-Level Meeting on NCDs;

• The “**nuts and bolts**” of the UNHLM itself – details, process and timeline;

• The **role and opportunities for civil society** to make a difference.
Why is it important?

• A **global multilateral** process for **global issues**
• All national governments at the highest **political level**
• Elevates health from the **technical to political** realm
• Opportunity to **focus attention, reiterate commitments, review progress**, and agree the **way forward**
• Galvanises **consensus on international cooperation**
• Results in **national political commitments and targets**
What are the lessons learnt?

- **The process** is as important as the meeting itself ("summit effect")
- Secure **surrounding summit support**
- **High-level political** engagement and attendance a must
- Civil society *can make a BIG difference*
- Framing and simple **political advocacy messages**
- Specific, tangible, **time-bound commitments**
- Get the **accountability architecture** right
What is the context? 6 positives

1. **Global awareness** of the scale, burden and threat
2. Longstanding **political leaders**
3. Plethora of **plans, political commitments and targets**
4. NCDs included in **UN Sustainable Development Goals**
5. Evidence base and **consensus on solutions**
6. Stronger **civil society movement**

NCD CIVIL SOCIETY ATLAS
NATIONAL AND REGIONAL NCD ALLIANCES IN ACTION
What is the context? 6 negatives

1. Slow and uneven progress globally
2. Countries overwhelmed and paralysed
3. Political inertia and opposition to “new and ambitious”
4. Still pitiful levels of resources
5. Interference of powerful multinationals in public policy
6. Absence of a people’s movement
“Progress at the national level on NCDs has been insufficient and highly uneven”
Slow progress in national implementation

138 Member States demonstrated **very poor or no progress** towards implementing time-bound commitments made at 2014 UN HL Review.

So in a nutshell, what can we expect?

- Expect a **LOT of different initiatives and reports to feed into the UNHLM.**
- Expect the **UNGA week to be crowded.** Multiple events: Nelson Mandela Peace Summit, UNHLM on TB, UNGA.
- Expect the **unprecedented two health-related UNHLM** in the same week to provide opportunities and pitfalls.
- Expect limited **technical capacity on health/NCDs** in New York missions.
- Expect significant **divergence in political ambitions** for outcomes—absolutely crucial to have strong leadership from CARICOM.
- Expect intense **industry lobbying** around the UNHLM – particularly on taxation, regulation, legislation.
- Expect a 1 day meeting to not solve all the worlds problems, but it is an important **milestone in a longer term process.**
The power of civil society to catalyse change

Coordinate
Advocate
Agitate
Communicate
1. Establish a **compelling narrative** for the NCD response to date, why the UNHLM matters, and why governments should care;

2. Elevate the countless **human stories, suffering and carnage** caused by NCDs in our advocacy and awareness raising efforts. Shift from technical to person-centred narrative;

3. Don’t rest until we have **secured support from our Heads of Government / State** to attend the UNHLM;

4. Coalesce around and stick to some **clear goals and priorities** for the Outcome Document negotiations;

5. Build **coalitions** with and well beyond our usual allies to broaden the support base for the HLM and our priorities. SDGs a useful “door opener” for non-health;
6. Identify **champions** (politicians, policy makers, parliamentarians, celebrities, community leaders, business leaders) to support our advocacy;

7. Maximise our **communications channels and platforms** (inc traditional and social media) to get the message out;

8. Promote and package the **evidence, solutions and success stories** to incentivise action at national/regional levels;

9. Know the process and timeline, and leverage **windows of opportunity** to get our voices heard and generate political support;

10. Be **persistent, tenacious and keep chipping away!**
NCD Alliance Campaign for UNHLM
"There is simply far too much preventable death and suffering due to NCDs. **Enough is enough.**"

"**Enough** of harmful commodity industries interfering with policy making."

"**Enough** of political inertia and lack of accountability for commitments."

"As a person living with an NCD, I’ve had **enough** of my voice and views being ignored."

"**Enough** of the inadequate funding to prevent and control NCDs."

"We have had **enough** of absent political will to beat NCDs."

"Budgeting for meals and my medicines is hard. I’ve had **enough** of the struggle!"
Six Campaign Priorities

1. Put People First
2. Boost NCD Investment
3. Step Up Action on Childhood Obesity
4. Adopt Smart Fiscal Policies That Promote Health
5. Save Lives Through Equitable Access to NCD Treatment and UHC
6. Improve Accountability for Progress, Results and Resources
Governments are sleepwalking into a sick future, while solutions to the NCD pandemic exist. It's time to translate commitments into action and progress.
