ENOUGH.
OUR HEALTH. OUR RIGHT. RIGHT NOW.

1

Put People First

Those most affected by NCDs need to be at the centre of decision making around NCD policy and programming.

2

Boost Financing for NCD prevention and control

NCDs are consuming national health budgets at astounding rates which cannot be sustained by our fragile economies.

3

Step up action on childhood obesity

Childhood obesity is an urgent regional and global issue which threatens to undermine the health of entire generations and there are clear global, regional and national recommendations for action.

4

Adopt Smart Fiscal Policies that Promote Health

i.e. taxation on unhealthy commodities namely tobacco, alcohol and SSBs, which are WHO recommended Best Buys.

5

Save lives through equitable access to NCD treatment and UHC

Access to high quality health care is a basic human right.

6

Improve accountability for progress, results and resources

Including investment in national health surveillance systems such as national NCD registries.

7

Strengthen post disaster health response systems to provide NCD treatment and care in disaster settings

(i.e. hurricanes and flash floods) recognizing the unique vulnerabilities of SIDS in the context of climate change.

8

Eradicate Cervical Cancer

Through the provision of the HPV vaccine throughout the region.

9

Make the Caribbean a Smoke Free Zone

Through full compliance with Articles of the FCTC to which most of the countries are signatories.
