

PREVENTING CHILDHOOD OBESITY IN THE CARIBBEAN

Enabling Caribbean civil society's contribution to national and regional action for healthier, happier children.

Suriname

Population
2017

563 402

World Bank Income Level
2017 Revision

Upper Middle Income

Estimated Cumulative Cost
of Obesity 2017-2025 (US\$M)

505.5

1 in 3 
Caribbean Children
is **OVERWEIGHT** or **OBES**

Childhood obesity* exceeds 10% in 7 of 11 CARICOM countries with data

Obesity in childhood is linked to high blood pressure, type II diabetes, and low self esteem

Childhood obesity tracks into adulthood increasing the likelihood of developing NCDs

*Based on the WHO definition of childhood obesity

Caribbean Policy Environment

Fiscal Policies	3/20	SSB Taxes in Barbados, Bermuda & Dominica
School Policies banning SSBs in schools	2/20	Bermuda and Trinidad & Tobago
Marketing Regulation/ Mandatory Front of Pack Nutrition Labeling	0/20	
Nutrition Guidelines & Policies/ Healthy Schools Policies	Multiple countries	

CARICOM Childhood Obesity Prevention action frameworks:

1. HCC Civil Society Action Plan 2017-2021: Preventing Childhood Obesity in the Caribbean
2. CARPHA Plan of Action for promoting healthy weights in the Caribbean: Prevention and control of childhood obesity 2014-2019
3. CARPHA 6-point policy package
4. PAHO Plan of Action for the prevention of obesity in children and adolescents 2014-2019

OBESITY AND OVERWEIGHT AMONG CHILDREN

WHO 2016*

Childhood levels of
OVERWEIGHT or OBESE

AGE	BOTH SEXES
5 to 9	34.4%
10 to 19	29.6%

31.1%

BOTH SEXES
AGE: 5 to 19

Childhood levels of
OBESE

AGE	BOTH SEXES
5 to 9	17.6%
10 to 19	12.3%

13.9%

BOTH SEXES
AGE: 5 to 19

GSHS 2016**

Adolescent
OVERWEIGHT

AGE	MALE	FEMALE
13 to 15	28%	29.1%
BOTH SEXES	28.6%	

Adolescent
OBESE

AGE	MALE	FEMALE
13 to 15	12.2%	11.1%
BOTH SEXES	11.6%	

RISK FACTOR STATUS

Insufficient activity***
2010

AGE	MALE	FEMALE
11 to 17	77.9%	83.9%

80.9%

BOTH SEXES
AGE: 11 to 17

BOTH SEXES

		BOTH SEXES
	Attendance at physical education (PE) class on >= 3 days/week during the school year	33.1%
	Students who spent three or more hours per day during a typical or usual day doing sitting activities	44.5%
	Soft drink consumption STUDENTS (13-15 years) who usually drank carbonated soft drinks one or more times per day during the past 30 days (%)	79.1%
	Infant breastfeeding	2.8%

***Percent of defined population attaining less than 60 minutes of moderate- to vigorous-intensity physical activity daily.

ADULT OVERWEIGHT AND OBESITY PREVALENCE

2016

Age-standardized prevalence of
OVERWEIGHT and OBESITY

MALE	FEMALE
53.4%	64.2%

Age-standardized prevalence of
OBESITY

MALE	FEMALE
18.9%	33.7%

Fresh fruit and vegetable intake is low in both Caribbean men and women, with less than 15% in most countries eating the recommended five or more portions a day.

References obesity and overweight among children:

***WHO.** The values provided by the World Health Organization's Global Health Observatory Data repository are best estimates using methodologies that allows comparability across countries and time. The estimates are updated as more recent or revised data become available, or when there are changes to the methodology being used. Therefore, they are not always the same as official national estimates.

****GSHS.** These estimates are based on cross-sectional surveys carried out in the countries and span the years 2007 to 2017. Given the time span of the data collection, the numbers quoted for some of the earlier years may not accurately reflect the current situation and comparisons between countries based on these figures is challenging.

CHILDHOOD OBESITY PREVENTION SCORECARD (COPS)

WHO Recommends a comprehensive approach to prevention including implementation of key policies including: Taxation of SSBs; Regulation of Marketing to Children; Mandatory Front of Package Nutritional Labelling; and School Policies. The HCC CSAP Childhood Obesity Prevention Scorecard (COPS) has 14 indicators to measure a country's response to this emerging crisis.

● Not implemented/Absent ● Partially implemented/Under development ● Implemented/Present

	1 National NCD Commission or Equivalent	●
	2 Active HCC COP Initiative (to be completed online only)	●
	3 Nation policy, strategic plan or action plan on obesity	●
	4 Mandatory front-of-package nutrition labelling regulation	●
	5 Nutrition policy or guidelines for all schools	●
	6 Regulation banning the sale and marketing of SSBs and or all EDNP foods in and around all schools and ensuring the provision of free drinking water	●
	7 Regulation banning the marketing of unhealthy foods to children	●
	8 Regulation banning trans fats (legislative limit on trans fat)	●
	9 Taxes on Sugary Drinks (SSBs)	●
	10 Taxes on EDNP foods / unhealthy foods.	●
	11 Subsidies on local fruits and vegetables	●
	12 Implementation of the Baby Friendly Hospital Initiative (BFHI) in at least one local health facility	●
	13 Legislation/regulations fully implementing the International Code of Marketing of Breast-milk substitutes	●
	14 Mandatory physical education in all government schools	●
	15 National program(s) contributing to childhood obesity prevention (COP) efforts	●

CSAP: Civil Society Action Plan | COP: Childhood Obesity Prevention | SSBs: Sugar Sweetened Beverages | EDNP: Energy Dense Nutrient Poor

PRIORITIES AREAS

 Trade and fiscal policies	 Nutrition literacy	 Early childhood nutrition	 Marketing of healthy and unhealthy foods and beverages to children	 School- and community-based interventions	 Resource mobilisation	 Strategic planning, monitoring, and evaluation
--	---	--	---	--	--	---
