

WEBINAR

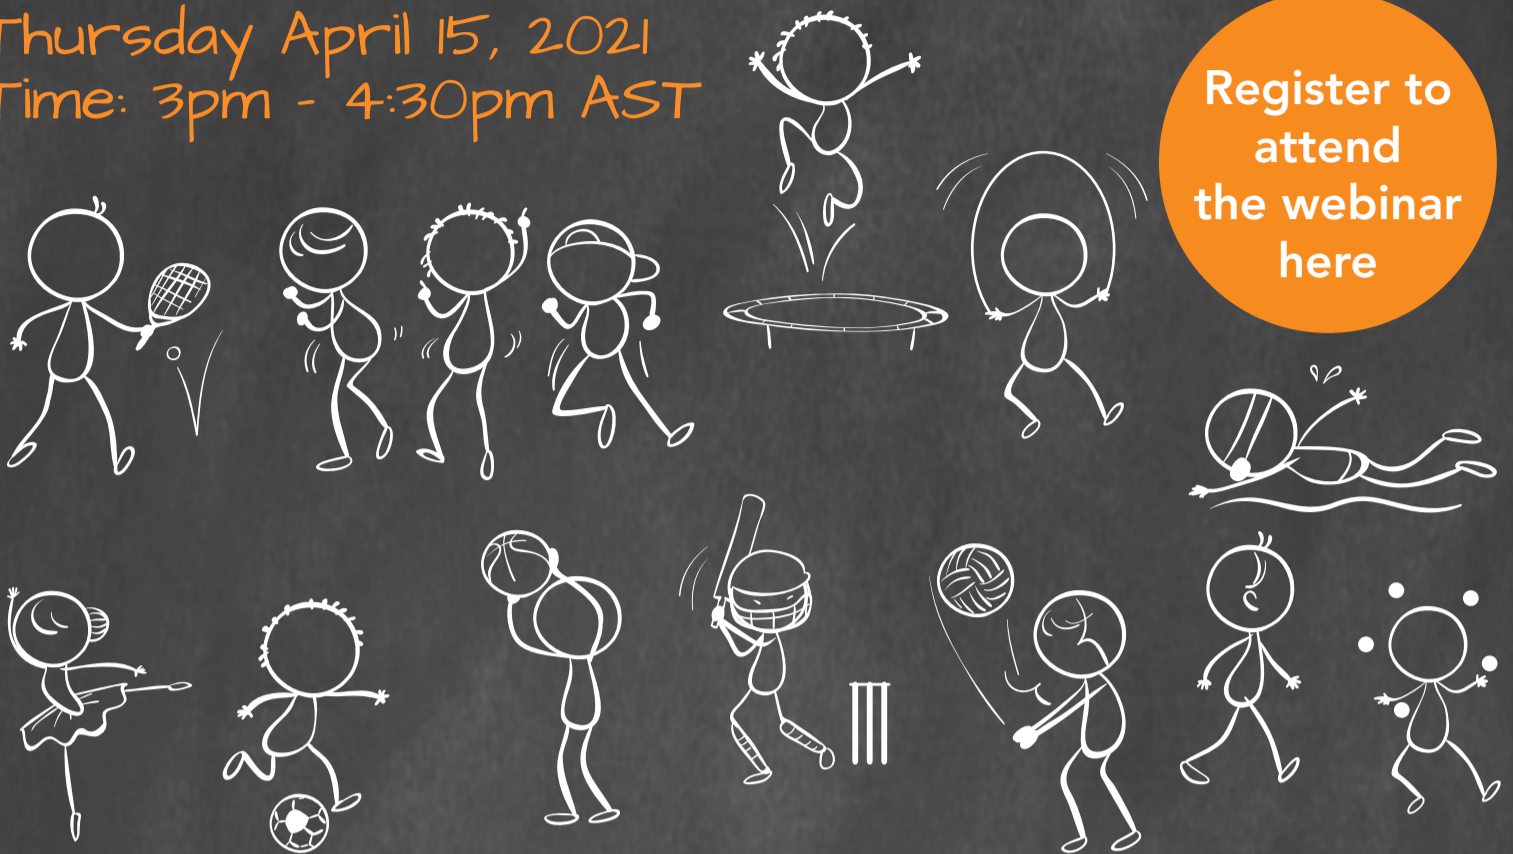

the future talks:

CULTIVATING HEALTHY SCHOOL ENVIRONMENTS

Exploring Physical Activity Opportunities

Thursday April 15, 2021
Time: 3pm - 4:30pm AST

Register to attend the webinar here

The Healthy Caribbean Coalition (HCC) and Healthy Caribbean Youth (HCY) in partnership with the Caribbean Sport and Development Agency is pleased to announce a joint special webinar - **The Future Talks: Cultivating Healthy School Environments – Exploring Physical Activity Opportunities**. This webinar is a continuation of the Healthy Caribbean Coalition's "The Future Talks" webinar miniseries, featuring young voices from across the Caribbean region. This webinar brings together a diverse group of panelists including students, young professionals and well-known physical activity experts from across the region to discuss cultivating active environments within and outside of schools.

Through a guided discussion, panellists will explore the following key themes over the course of the webinar:

1. Exploring physical activity opportunities within the school environment
 - Challenges in engaging/facilitating physical activity opportunities in school (before and during COVID)
 - Innovative solutions to get students moving during PE and throughout the school day
2. Exploring solutions to create communities
 - Challenges and Solutions in cultivating an active community, specifically addressing the need for improved built environment and related maintenance, accessible green spaces for recreational use and introducing and implementing strong and effective policies
