TOBACCO CONTROL POLICIES PROTECTING YOUTH

The **World Health Organization Framework Convention on Tobacco Control** (FCTC) provides recommendations for tobacco control policies which allows countries to safeguard public health. This convention allows for the protection of not only adults, but minors also. The tobacco industry still use tactics such as colorful packaging and tempting flavours to indirectly market to children which poses a serious public health issue if children start experimenting with tobacco.

The following policy recommendations are based on FCTC articles which, when implemented can increase tobacco control and protect youth from the danger of tobacco.
